Re: Drake P3 reference and letter of recommendation

Dear Lori:

It is with great pleasure I provide this letter of referral and recommendation for the Ascend Profiles firm and the Drake P3 product. When initially approached with the trial profile/survey, I admit, I was little hesitant to participate in 'another one of those surveys'. However, after completing the survey/profile and reading the short version of the report, I was very impressed with the customized nature of the report and its accuracy. Further, the detail report provided by you further increased the validity of the results and was 'dead on' with not only my results, but the results of the other participants at Credit Risk Management, LLC. I have participated in other similar products and really found this to be about the participant and not generic or limited to the product's glossary of limited classifications.

The opportunity to partner with Ascend Profiles and the Drake P3 consulting team has allowed Credit Risk Management, LLC to implement a recruiting, training and performance tracking program with unlimited potential and use. Not only does it allow us to focus on specific areas of concern during the interview process, it also allows us to compare and contrast the different strengths and short falls of the prospective candidates compared to our standard profiles created in Drake P3. Once on-board, the ability to track performance and goals, allows for a central data base and a consistent measurement tool across all facets of the firm, accessible by all firm managers.

We look forward to moving the product through the various modules and will be happy to discuss our successes with future prospective clients.

Warmest Regards,
Credit Risk Management, LLC

Robert A. Weisenberger, CPA
Director
