

ASCEND PROFILES

SELECT. DEVELOP. RETAIN.

As a small community bank, we value the expertise and comprehensive process-oriented approach that Ascend Profiles offers us. The Ascend team assisted us with the design of customized Job Profiles that have helped us better identify successful candidates for different roles within our bank. Our costs to recruit and train suitable employees have decreased as the result of using the Drake P3 System. We are making better hiring decisions that allow us to focus on more effective training and retaining these quality new hires.
